TO THE TRADE.

In presenting to you our new Catalogue for 1887-8, we desire to thank you for the liberal support you have given us in the past, and hope that, with our greatly increased facilities, to merit a still larger patronage in the future.

This is the most correct Catalogue in this line ever issued. It contains the name and maker's name of nearly every stove manufactured, and also an explanation of how the stoves are numbered, and other valuable information regarding stove repairs never heretofore published. We carry repairs for all the stoves as mentioned in the Catalogue, and are constantly adding to the list. We do not carry in stock odd pieces, such as mica doors, oven plates, etc., except as mentioned in the Catalogue, but we will endeavor to obtain the same for you if possible, and will furnish at lowest rates. Our line of patterns and our stove repair plant, including foundry, is the largest and most complete in the world. Our five-story warehouse contains over 1,000 tons of repairs, and it is divided into about 20,000 apartments, so arranged that we can furnish repairs with great despatch. We only use first-class materials in the manufacture of our goods, and fully warrant them to be unexcelled. Our stock of brick linings, patent adjustable stove linings, water fronts and fixtures is the most extensive in this country. A partial list is given in the back part of the Catalogue.

Soliciting your stove repair trade, and guaranteeing you satisfaction as far as lies in our power, we remain,

Yours truly,

NORTHWESTERN STOVE REPAIR CO.

HOW TO ORDER REPAIRS.

Always take time with a customer who wants Stove Repairs, and ask him the following questions:

Give name and number of Stove, also the maker's name.

Give the latest date of patent.

State whether fixtures wanted are for wood or coal. If for coal, state whether hard or soft coal.

State whether the stove is a front or pouch feed, or whether you put the coal in by removing the lids.

Many stoves are not numbered straight 7, 8 and 9, but are numbered thus: 70, 80 and 90, and 8-18, 8-20; and again some are numbered 8-18 A, 8-18 B, and so forth. Care should be taken to have the correct number.

The "New Active" stoves of Galway, Semple & Co., and the Cincinnati Stove Co., have two styles of bottom grates, (please see cuts); one style dumps forward and the other style backward; it is always necessary to state which style is wanted when ordering repairs.

If dealers will order their repairs carefully they will save themselves much annoyance and delay. See sample order on last page of book

SHIPPING DIRECTIONS.

Parties ordering goods should give shipping directions with care. Sign your name plainly (many omit this), and give name of town, county, and state; also, state by what route goods should be shipped, if you have any preference, otherwise we shall ship by route considered the most expeditious and safe.

Always state whether you wish goods shipped *Freight* or *Express*.

INSTRUCTIONS IN REGARD TO MISFITS.

In all cases where goods sent are not what parties intended to order, inform us by letter of the difficulty, and if we cannot suggest a remedy, they can be returned, but in all cases must be **prepaid**, as we find in the great majority of cases the fault is in the order. When we have the goods to compare with order, and find the fault with us, we will cheerfully allow for expense.

TERMS.

Net cash, in Chicago par funds.

No allowance for Exchange or Express charges.

For all amounts under \$2, you may remit 2-cent stamps, if preferred, subject to your risk.

To all customers furnishing good reference, we will ship goods and furnish statement at the end of each month, subject to draft if not remitted by 15th of following month.

SPECIAL NOTICE.

THE LARGEST STOVE REPAIR HOUSE IN THE WORLD.

We cordially invite our customers, and the trade in general, to call and examine our immense stock of Repairs, and unusual facilities for filling orders complete and with the least delay possible. An inspection will satisfy you that the quality of our castings is superior to those sold by any other house in the country. We not only have the largest Repair house in the country, but four times as many patterns as any Repair house.

 **GIVE US A TRIAL.**

Catalogue of Repairs.

A.

- Accepted.** (Coal Cook). Cash Stove Co. Complete fire box, centers, covers and wood fixtures.
- Acme.** (Coal Cook). Central Stove Works. Complete fire box, centers, covers, wood fixtures and dampers.
- Acme.** (Coal Cook). Low, Cowl & Co. Complete fire box, centers, covers, wood fixtures and dampers.

— ORPHA. —

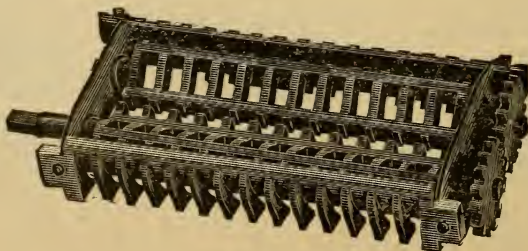

This cut represents the **No. 2 Laundry or Tailor Stove**. For the No. 3 we make a Cast Iron Boiler, holding 35 gallons. The stove can be used either with or without the boiler.

The No. 2 ORPHA holds 4 Tailors' Irons, or 6 Family Irons; the No. 3 holds 6 Tailors' Irons, or about 9 Family size Irons.

The ORPHA is the best Tailors' Stove made, and a source of great convenience to families who can afford to use them; while for farmers, it makes, in addition to a Laundry Stove, a very compact Farmers' Furnace and Boiler combined.

Price of No. 2 ORPHA, \$9. No. 3, \$10. No. 3, with 35 gallon boiler, \$15.

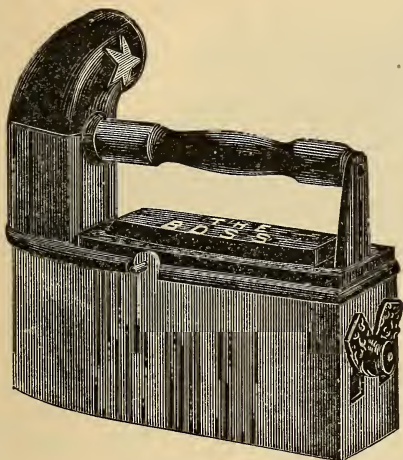

NET PRICES TO THE TRADE.

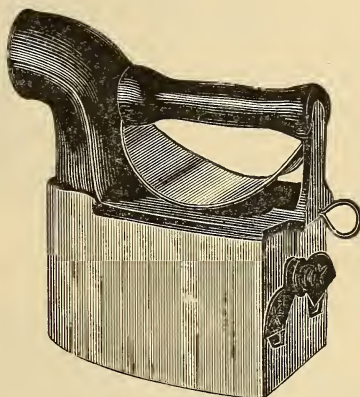

DOCKASH GRATE.

BE SURE AND GIVE DESCRIPTION AS INDICATED ABOVE.

CHARCOAL IRONS.

"The Boss."
FOR TAILORS' USE.

The Nickel Plated
FAMILY IRON.

The above cut represents our DOUBLE FLUED TAILORS' AND FAMILY CHARCOAL IRONS, which have been used with such remarkable success in all the large cities of the United States. We have made several improvements this season, and their increasing sale is good proof of their superiority over all others.

The principal feature is the construction of the DOUBLE FLUE through which a sufficient amount of air is admitted to cause quick and perfect combustion of the charcoal, so necessary to get the required amount of heat for Tailors' use.

You will perceive at a glance that the Charcoal Iron is needed by every family, obviating, as it does, the necessity of a fire in the cook stove and the heating of the house for the purpose of ironing.

The price of Family size, (8lbs.), \$15.00 per doz.

" " Tailors' " (22 lbs.), 27.00 " "

NET PRICES TO THE TRADE.

DIRECTIONS FOR USE.

Remove the top and place at the bottom of the Iron a small quantity of lighted splinters or shavings; put in your charcoal and place the iron where the draft will strike the back flues (which must be open); in about five minutes the iron is ready for use. If it becomes too hot, close one or both of the drafts.

 We also carry in stock a large variety of TAILORS' SOLID GEESE.

WILL MAIL ORDER BOOKS WITHOUT CHARGE UPON APPLICATION.

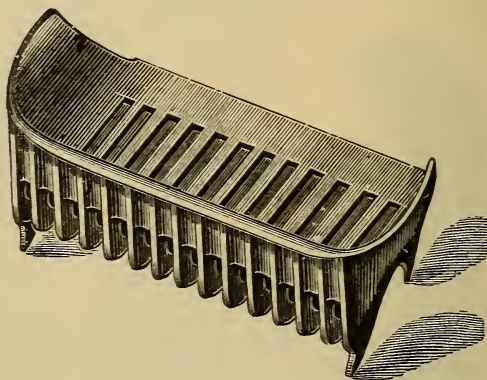

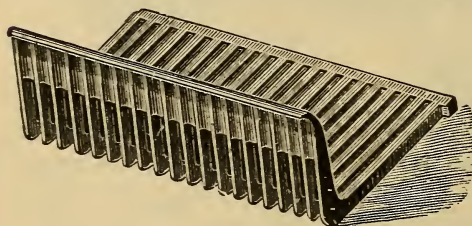

COAL GRATES.

FOR MAKING COAL STOVES OUT OF WOOD STOVES.

Basket Grate.

	Inches. Long.	Inches. Wide.	Inches High.
No. 7	—16½....	7½....	5½
No. 8	—19	7½....	6¼
No. 8½	—19	8½....	5½
No. 9	—22	9½....	7¼
No. 9½	—22	8½....	6¼
No. 10	—20	9½....	8
No. 11	—23	10	8½

The width of all these grates measured
from the top of the Grate.

**PLAIN GRATE.**

	Inches Long.	Inches Wide.	Inches High.
No. 7.....	14	6½	6
No. 8.....	16	7¼	6¼
No. 9.....	20	9	7
No. 7.....	14½	8	6¼
No. 8.....	16	8	6¼
No. 9.....	20	9	6¾
No. 7*.....	15	7¼	6
No. 8.....	17	7¾	6
No. 9.....	19	7¾	6

*Light style.

DUMP STYLE OF PLAIN GRATE.

	Inches. Long.	Inches. Wide.	Inches. High.
No. 7.....	15.....	7¾	6
No. 8.....	17.....	7¾	6
No. 9.....	19.....	8	6

The width of all these grates measured
from the top of the grate.

We are gratified to be able to offer you so great a variety of Coal Grates for converting wood cooks into coal burners. The high price of wood and the inability of many to purchase coal stoves, make these grates particularly desirable, as soft coal can be burned quite as successfully by their use as though the stoves were originally constructed for coal.

The wood fire backs can also be used for coal.

Where the plain style of grate is used, our invincible stove cement (ground fire brick) makes excellent end linings.

BE SURE AND GIVE DESCRIPTION AS INDICATED ABOVE.

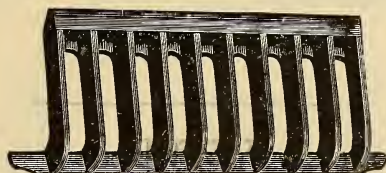

NEW ACTIVE GRATES.

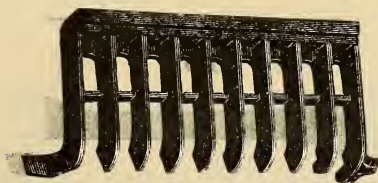

New Active Bottom Grate—back dump style.

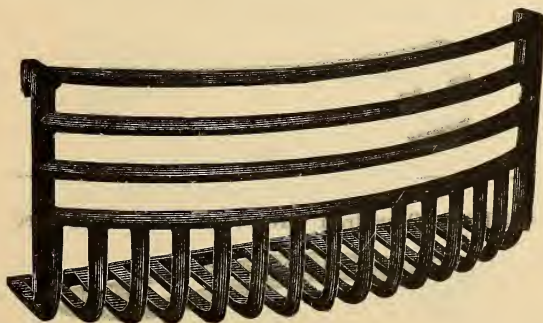

New Active Bottom Grate—front dump style.

New Active Front Grate—back dump style.

New Active Front Grate—front dump style.

Open Fire Place Grate. We have assorted kinds and sizes.

FIRE BACKS AND GRATES.

ADJUSTABLE FIRE BACKS, FOR COAL—FRONT VIEW.

ADJUSTABLE BOTTOM GRATE—UNDER VIEW.

STRAIGHT COAL FRONT GRATE.

CURVED FOOT FRONT COAL GRATE.

WILL MAIL ORDER BOOKS WITHOUT CHARGE UPON APPLICATION.

MISCELLANEOUS.

WOOD'S STOVE POLISH.

Best in use. Liquid in bottles, or paste in air-tight cans, containing 5 lbs., \$1.00.

STOVE PUTTY.

For mounting and stopping cracks in Stoves. In 5-lb. cans, 40 cents each.

STOVE-PIPE DAMPERS.

Cheapest and Best.

CEMENT.

For covering the cracks of Top Oven Plates.

INVINCIBLE STOVE LINING.

Will make a first-class Lining for all kinds of Stoves. Coal will not clinker with this Lining. Price, \$2.50 per 100 lbs.

ASBESTOS LINING.

Used for the same purpose as the Invincible, but put up in small cakes, and packed in cases ready for shipment.

MICA.

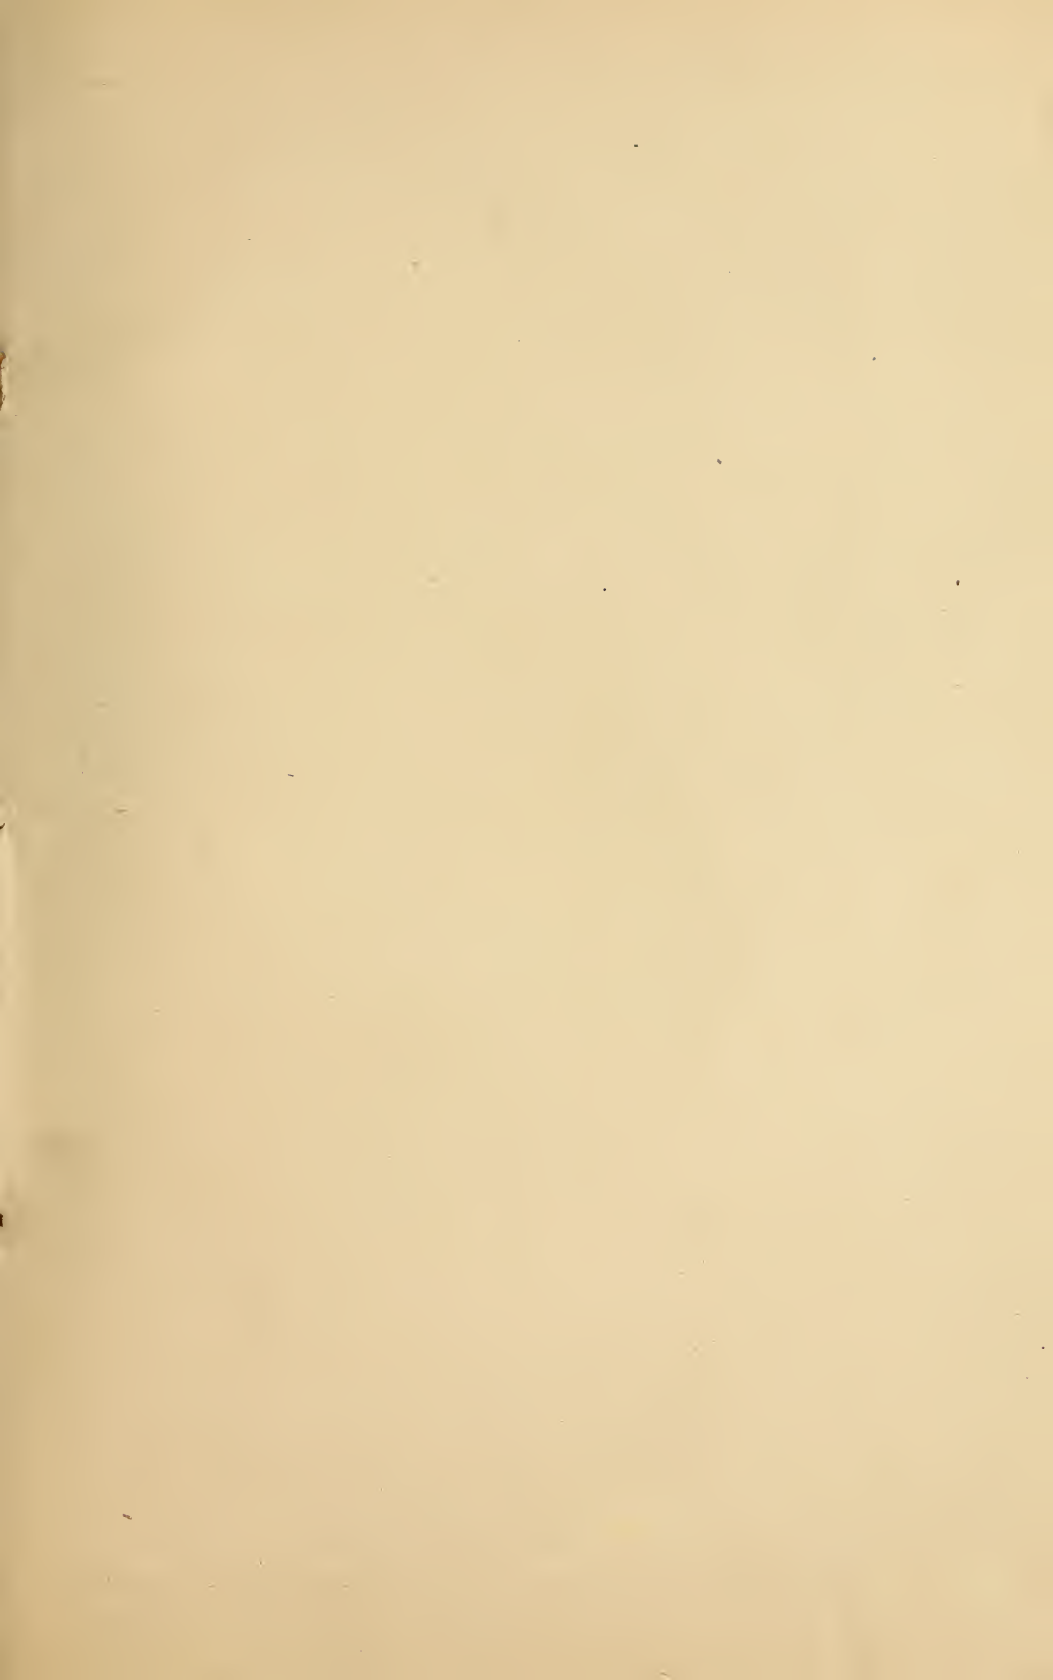

In all sizes, at market prices.
